WEST LAKE SHORE ROAD CONSTRUCTION

The street repair to West Lake Shore Drive is complete and will be ready for traffic Thursday, April 24. Contractor Allen Butler began the street repair last week.

The road is being improved with a solid concrete surface, replacing the original asphalt. This was a troublesome spot when the original road was constructed.

The work was not interrupted by bad weather, but several residents were displaced during construction.

The city regrets the inconvenience.

The road surface was replaced due to extensive deterioration due in part to the close proximity to the lake.

EGG HUNT SPECTACULAR

Thursday evening was a wonderland of eggs and kids. The Ransom Canyon Library hosted another spectacular Easter Egg Hunt for the kids.

The Library has new summer hours and a new summer reading program. Go by and visit and "Spy A Book".

Summer hours will be:
Tues 2:30—6:30pm,
Thurs 10:00—2:00pm

WATER CONSUMPTION INCREASES EARLY IN SEASON

Spring time weather and low rainfall portends high water consumption.

Harold Needham reports that water consumption is high already this season. Water usage is usually this high in July or August, not in April.

Water conservation is a High Plains and Texas priority. Water leaks are costly.

The best time for landscape irrigation is in the early morning hours. Also, please direct sprinklers to curtail water running in the streets.
